

PHOTO LONDON

The Photography Event of the Year

Photo London, the UK photography event of the year, returns to the stunning setting of Somerset House this May. Created to give London an international photography event befitting the city's status, the world-class fair has established itself as a catalyst for London's dynamic photography community.

The four-day extravaganza will harness the city's outstanding creative talent, bringing together the world's leading photographers, exhibitors and collectors to celebrate photography, the medium of our time.

Quintessentially's Art Patrons will enjoy exclusive access to the VIP Preview on 17th May. For further details, please contact tali.zeloof@quintessentially.com

HENNESSY

Exclusive Paradis Impérial Cognac Tastings

Quintessentially has partnered with Hennessy, the legendary French Maison de Cognac, to curate bespoke and intimate experiential tastings and four-course dinners that celebrate its ultra-refined expression: Paradis Impérial.

Bringing together select Quintessentially Members and Cognac connoisseurs, Hennessy, which has been crafting the world's finest Cognacs since 1765, is able to indulge invited to a culinary moment like no other. The dinners, which so far have taken place in New York and at Art Basel Miami Beach, are contemporary gastronomic evenings with the eau-de-vie's "Made of Precision" leitmotif - front and centre.

At the Art Basel Miami Beach event last year, in the penthouse of the Residences at The Miami Beach EDITION, Hennessy and Quintessentially tapped Grimanese Amorós, a Peruvian light artist based in New York City, to co-host the event.

"Precision, a word I love is part of my life and my work, the lighting must be extremely precise," reasoned the artist, who is known for immersive, large-scale light sculpture and light installations around the world. "For me, the evening was a romance with the Unknown; a wonderful opportunity to learn and discover behind-the-scene the creation of Paradis Impérial."

This spring will see the collaboration continue to San Francisco, Los Angeles and Houston.
